

## **Programmable Matter**

Gustavo Adolfo Chapela Castaños

Departamento de Física. Universidad Autónoma Metropolitana – Unidad Iztapalapa

An answer to these questions:

What is programmable matter?

What is the relation of auto-assemble with programmable matter?

What is the state of the art of programmable matter and auto-assemble?

What is the future of programmable matter and auto-assemble?

is attempted through examples of work done in our laboratory and also work performed by other authors.
